Wing Capital Group Adds Muza Metal Products

Oshkosh, WI February 1, 2011— Muza Metal Products of Oshkosh, WI, has been purchased by Wing Capital Group of Milwaukee, WI. The announcement was made today.

“We’re extremely proud to have acquired a great Wisconsin company like Muza Metal Products,” said Jeff Beischel, Founding Partner/Managing Director of Wing Capital Group. “They have been a family-owned company since 1928 and were looking to transition to a group that could uniquely support the leadership team in carrying out their growth plans. We have been very successful at this before with another Wisconsin based family-owned manufacturing company, KMC headquartered in Port Washington, WI.”

“Given our dramatic growth over the past few years, we knew it was in our best interest to transition the ownership to a group like Wing Capital Group,” said Tom Muza, Owner of Muza Metal Products. “Wing’s track record with their other investments, their leadership philosophy in developing management teams and the fact that they’re from Wisconsin, too, made them the perfect match.” Dan Hietpas, President of Muza Metal Products, said “I really look forward to working with the team at Wing Capital Group as we carry out our strategic growth initiatives.”

Established in 2007, Wing Capital Group philosophy is to invest more than just capital. Between its founders and managing directors, Wing brings years of operating experience and a unique perspective to mentor and add value. For more information, please contact Jeff Beischel, Founding Partner/Managing Director, at (262)-284-2200.
